

DHEP Annual Meeting, 2016

Friday, 8 April 2016

Poster Session (Including Tea Break) - Homi Bhabha Auditorium foyer (16:10 - 18:30)

[id] title	presenter	board
[43] Development of OFHC Copper Wire Gasket for UHV Sealing		
[64] Entangled Photon Source and FPGA-Based Multi-Channel Counter and Correlator	Mr JETTY, Ninand	
[65] Optical position sensor with magnetic feedback actuator for gravitational wave detectors	Mr RODRIGUES, P.G.	
[48] Global services and calibration system for the INO-ICAL detector		
[46] Front-end data acquisition and control module for ICAL RPCs		
[47] Multilevel and configurable trigger system for INO-ICAL experiment		
[44] Active Thermal Control System at Gauribidanur -- Generating Millidegree Stability in a Room- sized Volume		
[45] Analog front-end solutions for ICAL RPCs		
[42] Design and Development of Nanosecond Light Flasher for CTA Telescope	Mr SINGH, Bharat	
[40] Pixel cluster Module for GAPD Based Imaging Camera	Ms K RAO, Shobha	
[41] Performance Parameters for G-APD based Camera	Ms PATEL, Sonal	
[49] Network scheme and distributed data processing system of ICAL experiment		
[51] Design validation and Performance Of Close Loop Gas Recirculation System		
[50] Monitoring of absolute pressure and estimation of leak of an RPC gas gap
