

Wide Band Spectral and Timing Studies of Cosmic X-ray Sources

Friday, 13 January 2017

Others-2 - AG-66 (14:00 - 15:30)

-Conveners: Vikram Rana

time	[id] title	presenter
14:00	[54] Identification of a white dwarf pulsar and observations of a diskless intermediate polar	Prof. BUCKLEY, David
14:20	[55] AR Scorpii as a possible seed of highly magnetized white dwarfs	Prof. MUKHOPADHYAY, Banibrata
14:40	[56] X-ray observations of novae with Swift	Prof. PAGE, Kim
14:55	[57] Giant pulse emission from pulsars and ASTROSAT	Prof. JOSHI, B.C.
15:10	[58] Coordinated timing of Crab pulsar with Astrosat CZTI and radio observatories	Prof. BHATTACHARYA, D.
