

Recent advances in string theory

J SUBBA RAM

Desgn: GM, Control systems group.

Mr. Subba ram, a Graduate in Computer science and engineering, joined ECIL as Technical officer and has over 30 years of experience in Development and production of Control systems for process plants and operator training simulators.

Today under the topic " Lab to Launch" he will be talking about the Development framework being adopted by ECIL for collaborating with various R&D labs and institutes with DAE to bring out products that will lead us towards realising our shared goal of Atma nirbhar bharat.
