

2nd DAE Conclave

Friday, 16 January 2026

Cutting-edge technology: Cutting-edge technology (16:00 - 18:30)

time	[id] title	presenter
16:00	[94] Research with Ultra-high Intensity Laser Driven Plasma based Particle Accelerators and Betatron X-ray Source	MOORTI, Anand
16:30	[95] Infra-red Free Electron Laser for Scientific Research	PANT, K. K.
17:00	[109] Seeing the Unseen: Detectors for Nuclear and High Energy Physics Research	GHOSH, Tilak K.
17:30	[110] An overview of special materials and components developed for nuclear and non-nuclear applications at NFC	GANESHA, G N
